Office Action Summary

Application No.

10/634,020

Applicant(s)

LU ET AL.

Examiner

Len Tran

Art Unit

1725

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 November 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-34 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-7, 24 and 27 is/are allowed.
- 6) ☒ Claim(s) 8-23, 25, 26 and 28-34 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)
Paper No(s)/Mail Date _____.
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date. _____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

DETAILED ACTION

Election/Restrictions

1. The restriction mailed on September 14, 2004 has been withdrawn. All claims will be examined.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 8-23, 25-26 and 28-34 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admitted prior art (pages 13 and 14, figures 2 and 3).

As to claims 8-11, 14-16, 19-21, 25, 26, 28-34, Applicant's admitted prior art discloses in pages 13, 14, and figure 2, a composite resistance spot welding electrode comprising a shank, a tip portion with the shank portion, the tip portion comprising a co-axial annular outer sleeve, the sleeve having an end co-terminus with a tip portion end distal to the shank portion, the tip portion end and the sleeve end cooperating to form a smooth, continuous tip face, wherein the sleeve has a thickness in the radial direction of about 10-30% of the outside radius of the sleeve, wherein the sleeve is formed from stainless steel. The annular sleeve has a thickness in the radial direction of about 5-15% of the outside diameter of the sleeve. The diameter of the insert is no more than about 50% of the diameter of the tip.

As to claims 12-13, 17-18, 22-23, Applicant's admitted prior art's apparatus is capable of having the electrodes compress between 700-2000 pounds-force, 60-Hz current of about 20-30 KA for 10 cycles, a nugget to be formed with a thickness of between 0.8-3.4 mm and a diameter between 2-6mm.

Allowable Subject Matter

3. Claims 1-7, 24, and 27 are allowed.

The prior arts of record fails to teach a combination of a) a shank portion; (b) a transition portion comprising: integral with the shank portion, the transition portion (i) an annular groove co-axial with the transition portion; and (ii) a co-axial neck ring contained within the annular groove; and (c) a tip portion integral with the transition portion, the tip portion comprising:

(i) a co-axial cavity having an opening to a tip portion end distal to the transition portion;
(ii) an insert contained within the cavity, the insert having an end co-terminus with the distal tip portion end; and

(iii) a co-axial annular outer sleeve, the sleeve having an end co-terminus with the distal tip portion end, the tip portion end, the insert, and the sleeve end cooperating to form a flat face;
wherein

(d) the insert comprises no more than about 40 percent of the area of the face; and

(e) the sleeve has a thickness in the radial direction of about 10-20 percent of the radius of the face.

Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Len Tran whose telephone number is (571) 272-1184. The examiner can normally be reached on M-F, 8:30 - 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on (571) 272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
